PERSONAL PROJECTS

Chat Sentiment analysis
- I along with 4 more members , made a project to predict the sentiment of the chat that the user inputs , by the help of our own model .
- Skills - Machine Learning , Python , Apox training.

WORK EXPERIENCE

Intern
HighRadius Corporation
01/2022 - 04/2022
I was asked to build an AI enabled B2B invoice management system , where we made a full-stack and machine learning model to predict the payment date of an invoice . I enjoyed making the front-end part , and hence I am interested in this field

Tools used
- Machine Learning , Java , JDBC , HTML , CSS , ReactJS

SKILLS

HTML   CSS   ReactJS   C   C++(basic)
MySQL   DBMS   Java   JavaScript
Computer Networks   Operating Systems
Python
